

Santa Engracia 5

1<sup>st</sup> March 1927.

My dear Doctor Ortega, It is impossible

for me to thank you for your kindness to myself and Mrs. Stevenson during our stay in Madrid. I appreciate your

personal attention very highly and I feel that I could not have learned more anywhere in three months.

It is a distinguished honor and a great pleasure to have known you and to have worked in your laboratory.

Before we leave Spain we send  
you our very best wishes  
and hope to have you with  
us in New York for a visit  
soon.

My colleagues at Bellevue  
and Cornell as well as  
myself are very much  
indebted to you for the  
assistance you have given  
me.

With kindest regards,

Lewis Stevenson
