

OFFICE OF THE PRESIDENT

November 11, 1929

Senor Don P. Del Rio Hortega  
Conde de Aranda 4  
Madrid, Spain

Dear Sir:

Dr. Penfield has informed us that your two chapters for the Cytology and Cytopathology of the Nervous System have not yet reached him. The book is otherwise almost ready to go to press.

Our contract called for delivery of this ms. some months ago and we are very anxious to publish the book at an early date. We are therefore making a direct appeal to you in the hope that you will be able to send your two chapters very soon. We realize the value of your contributions and are anxious not to publish the book without them. It is for this reason that we would urge you to send on the mss. at the earliest possible moment. We feel that the book will be a distinct contribution to medical science and are anxious that Spanish histologists should not be omitted.

Yours very sincerely,
