

THE LOS ANGELES COUNTY GENERAL HOSPITAL
COUNTY OF LOS ANGELES

TELEPHONE CAPITOL 0670

1100 NORTH MISSION ROAD

LOS ANGELES, CALIFORNIA

Feb. 22, 1933.

IN REPLY REFER TO

Dr. Pio Del Rio Hortega,
Instituto Nacional de Oncologia,
Madrid, Spain.

Dear Sir;

In a recent communication from Dr. Wilder Penfield, he tells me that you are now publishing a journal in which much of your work on the histology of the nervous system is being printed. Your work in this regard has been so outstanding that I should like to secure a subscription to the "Archivos Espanoles de Oncologia". Would you mind quoting me the price of this journal, including the back volumes to date?

I would also appreciate securing reprints of your articles of recent years which have appeared in other Spanish journals, should you favor me with this honor. We are attempting to establish a laboratory for the study of the pathology of the nervous system in this institution and trying to get together a library as well.

Thanking you for any favor you may show me in this regard, I remain,

Very sincerely yours,

Cyril B. Courville, M.D.
Cyril B. Courville, M. D.
Department of Neuropathology.
