Senor Don Pio Del Rio-Hortega,
Residencia de Estudiantes,
Pinar,
Madrid,
Spain.

Dear Don Pio,

I have just received your telegram in regard to the report for the Cancer Congress. I received a letter from Dr. Bejarano in January and answered him at once, addressing the letter to Atocha, 104, and telling him that it would be impossible for me to accept the honour and that he would therefore have to get someone else to do it. I have not heard any more until I receive your telegram now.

I am so sorry that I will not be able to come to the Congress and would hardly be able to prepare a report on the peripheral nerves. I am sure that you can do it yourself very much better. Your report would then fit in with what you have already written on the tumors within the spinal and cranial cavity.

We are starting to build an Institute here and I have other work so that it is quite impossible for me to prepare anything that would be acceptable for such a congress between now and October. Please forgive me therefore, if I cannot help out with a contribution now.

With best personal regards,
Sincerely yours,

WGP/HL.
