

McGILL UNIVERSITY
MONTREAL

23rd June 1933.

Senor Don Pio Del Rio-Hortega,
Residencia de Estudiantes,
Pinar,
Madrid.

Dear Don Pio,

This will introduce to you Professor John James Ower who is a professor of pathology at the University of Alberta. He is coming to Madrid for a visit now and is very much interested in neuropathology, although he will not have time to spend very long there for the present. Professor Ower is very much interested in the Spanish language as well.

I am so sorry that I could not prepare the paper on the tumors of the peripheral nerves. They are working on our Institute now and I find it impossible to add anything more to what I have in hand already. You can do it so much better yourself in any case, that I think it would be an imposition for me to try.

With kindest regards for your father and sisters,

Yours very sincerely,

WGP/HL.

Wilder Penfield
