Dr. P. del Rio-Hortega,
Laboratorio de Histologia,
Calle del Pinar, 21
Madrid, Spain.

Dear Dr. Rio-Hortega,-

In the spring of 1928 I was in Madrid, and had the privilege of working in the Instituto Cajal. Near the end of our stay in Madrid, Sr. and Sra. Seris kindly invited Mrs. Addison and myself to visit the Residencia, where we had the pleasure of meeting you and seeing your laboratory.

Since then I have often wished to return to Madrid, to spend some time with you in research, but have had no opportunity until now. I have been able to arrange for a leave of absence during April and May of this spring, returning here about June first. This will allow me a month in Madrid, and I hope very much that you may grant me the privilege of spending it in your laboratory. This is but a short time but I would hope to make a beginning at some problem and to continue it after my return home.

We plan to sail from New York on April 3rd, and expect to be in Madrid about the middle of April.

With kindest regards,

Yours sincerely,

W. H. F. Addison,

February 22, 1934

Benevol' nostro puto en que V. ante a un laboratorio
pero ~~esto~~ por un nivel es elevacionado poro tiempo para
esperar una labor practica: en todo caso, esto
es rentable por asi como el nivel de actividad es de
un tipo a Barcelona durante 8 dias. S. V. se decide
a venir para el desplazamiento oportuno.

Un af'c
