Dear Don Pio,

I have had letters from Dr. Norcross, who worked with you for a while, asking if he can come on here. Please write to me in Spanish and tell me frankly what you think of him as a Laboratory worker. Does he seem a gentleman?

We have set the opening exercises of the Montreal Neurological Institute for the 27th of September. I wrote to you about Dr. J. Sanchez Pérez last week, and will wait to hear from you again about him.

Yours very sincerely,

Wilder Penfield
